Contents

This Contract Stock Guide provides you with all the information you will need on current stocked Ulster Carpet products.

Thanks to the hardwearing nature and durability of Ulster Carpets, many of our stocked ranges are suitable for contract use. Where a project does not require a bespoke product, stock ranges offer an attractive alternative, with the added advantages of readily available samples, matching batches and a quick turnaround.

We have divided the guide into ranges which have their suitable locations easily identified - Bedrooms & Suites, Corridors, Meeting Rooms and Public Areas. This will help you quickly locate the ideal Ulster product for your project.
