NATURAL CHOICE COLLECTION

When you think of wool, you instinctively think of a white material that is naturally soft.

Yet nature has gifted us with different sheep breeds that have naturally different coloured fleeces. Ulster Carpets have taken these different coloured fleeces and used them to create their environmentally conscious Natural Choice Collection.

The collection consists of Natural Choice Axminster, the Wilton range known as Natural Choice Plains and the tufted loop Natural Choice Textures range.

All are manufactured from 100% undyed wool to provide a range of entirely natural colours that work perfectly on their own or together.

Design: Natural Choice Axminster Mandara

Natural Choice Axminster

The beautiful textural designs within the Natural Choice Axminster range celebrate the diversity of artisan skills handed down through generations and reflects cultural references from across the world.
