«MULTIWIDTHS»

Our unique Multi Widths service allows customers to buy the amount of carpet that they need. This reduces the cost of the carpet, the cost of fitting and the amount of waste produced.

Five colour matching widths

Axminster - All our residential Axminster ranges are available in five colour matching widths - 4.57m, 3.66m, 2.74m, 1.83m and 0.91m wide. Excluding Boho which comes in 4m, 3m, 2m and 1m wide.

Wilton - All main residential Wilton ranges are available in five colour matching widths - 5m, 4m, 3m, 2m and 1m wide.

Tufted - All our residential tufted ranges are available in five colour matching widths - 5m, 4m, 3m, 2m and 1m wide. Excluding Terraen which comes in 4m, 3m, 2m and 1m wide.

*Please be aware, Vescent, Fusion and Natura are 4m widths only.

For more information on Multi Widths visit our website.

Axminster Products

WHY CHOOSE A WOVEN AXMINSTER

Choice of colour and textures

From neutral tones to an eye-catching pattern, a woven Axminster offers a greater choice in terms of colour and design options.

Made in the UK and Ireland

We manage every part of the manufacturing process in our innovative facilities in the UK and Ireland. From the spinning and dyeing of the yarn through to the design and weaving of the finest Axminster carpets, we have complete control over every stage.

Superior construction

The Axminster weaving process weaves the pile and backing together to create greater stability and better long-term performance. We blend the finest wools with just enough nylon to create the optimum balance of appearance and performance.

Natural Choice

Made from 100% natural undyed wool to minimise the impact on the environment. Ulster blend the wool of naturally different coloured fleeces, to create a broad colour bank of entirely natural colours. The yarn for Natural Choice, like all of Ulster's yarn, is manufactured at our spinning mill in Dewsbury, West Yorkshire, ensuring total control over quality and long term security of supply.

Quadruple sheared

All our Axminster carpets are sheared four times. Each cut takes a tiny amount off the pile to give a smoother surface to your finished carpet.

Moth resistant treatment

We apply a moth resistant / repellent treatment during the manufacturing process that penetrates the entire carpet pile. Our research shows that this application method provides long-term resistance that will remain in place for the normal life cycle of your carpet. (Excluding Natural Choice Axminster)

Aftercare

With simple, regular maintenance, an Ulster Carpet will stay looking its best for many years. Every week, use an upright vacuum with a beater bar to dislodge most of the dust and dirt trapped in the carpet to maintain the original look of your carpet for longer.

Design: Anatolia Scroll Souk

Anatolia

Anatolia is a quality woven Axminster range that delivers style and elegance. A flowing stair runner, a subtle scroll or an opulent medallion can provide the inspiration for any living space.

Anatolia offers versatility and has the ability to look timelessly elegant in one setting and expressively modern in another. Available in a variety of colours and three designs, Anatolia can create an aspirational yet attainable look.

Note: For those consumers who wish to use the medallion design on their staircase please be advised that the medallion element is not centralised within the overall design.

Design: Beaumont Inkstone

Beaumont

Conjuring up images of picnic blankets, kilts and all things woollen and warm, Beaumont is a versatile, stylish and sophisticated plaid range by Ulster.

This traditional design has been brought into the 21st Century: subtle tones and carefully placed highlights of colour create a carpet with depth and timeless appeal, in beautiful colourways.

The beauty of plaid designs are their versatility and these colourways are as comfortable in a contemporary interior as they are in a traditional country house setting.

Design: Fusion Reverb Electric

Fusion

As the name suggests, the inspiration for this range is a fusion of rediscovered classic designs that have a resonance in many different areas of interior design.

The chevron Reverb has roots in architecture, parquet flooring and embroidery; the dogtooth design of Tone originates from tweed fabrics and is a staple of both furnishings and haute couture; while Sonic echoes ikat textiles and slub yarn designs.

Natural Choice Axminster

Recognising a growth in public awareness of environmental and ecological issues, Ulster have developed Natural Choice, an eco-friendly collection woven from 100% undyed wool.

Natural Choice Axminster is made up of a variety of textural designs, each inspired by nature.

Composed from natural, renewable elements, Natural Choice is completely recyclable and biodegradable at the end of its life cycle. It therefore has a minimal effect on the environment.

Wilton Products

WHY CHOOSE A WOVEN WILTON?

Choice of colour and textures

Using one of the oldest methods of manufacturing a carpet, our range of quality textured plains is available in a comprehensive palette of neutral colours in a variety of Wilton, Velvet and Twist ranges to enhance your home.

Made in the UK and Ireland

From sourcing the highest quality wool and spinning and dyeing the yarn through to the bespoke design and weaving of luxury Wilton carpets, Ulster's attention to detail and commitment to the highest quality is woven into every stage of the process.

Superior construction

A Wilton carpet is made with only one backing that is woven around the pile yarn. This gives your carpet greater long-term stability and better performance over time. Using the optimum blend of wool and nylon provides long-term performance and appearance benefits to withstand the daily wear and tear of normal life.

Double sheared

All our Wilton carpets are sheared twice, with each cut taking a tiny amount off the pile to give a smoother surface to the finished carpet.

Moth resistant treatment

To protect your carpet against the attack of both moths and other wool eating insects, a moth resistant treatment is applied to every Wilton carpet. (Excluding Natural Choice Plains)

Aftercare

With simple, regular maintenance, an Ulster Carpet will stay looking its best for many years. Every week, use an upright vacuum with a beater bar to dislodge most of the dust and dirt trapped in the carpet to maintain the original look of your carpet for longer.

Grange Wilton

Combining the luxury of wool and the hardwearing properties of nylon, Grange Wilton uses high twist plain and heather yarns woven tightly to create the ultimate luxuriously dense floorcovering.

The impressive range of colourways within Grange Wilton include warm organic mineral tones, soft muted greys, beiges, green and reds, all inspired by a timeless heritage palette.

The nostalgic tones and colours found in Grange Wilton will effortlessly create warmth and deliver practical luxury.

Natural Choice Plains

The Natural Choice Plains range has been specifically designed to complement the Natural Choice Axminster range, offering a complete co-ordinated solution.

Woven from 100% natural undyed wool each of the Natural Choice Plains delivers all of the associated benefits of wool in six 'organic' woven Wilton colourways.

By combining a patterned carpet in one room with the subtly of a plain carpet in another, the consumer can easily create a naturally flowing effect.

100% Undyed Wool

Available in 5m, 4m, 3m, 2m & 1m

Suitable for Extra Heavy Wear

Ulster Velvet

One of the finest Wilton products on the market, Ulster Velvet is a luxurious wool-rich flooring. This range looks and feels as its name suggests: smooth, with a texture akin to velvet.

In response to the consumer demand for plain carpets, particularly neutral colours, the Ulster Velvet range will harmonise and co-ordinate with almost any interior scheme.

York Wilton

York Wilton offers a comprehensive palette of colours in an array of plain and heather yarns, with gently-textured twists conveying a simple yet classic style.

The heathers add a softer, contemporary feel to the range by blending more than one colour into the twist.

Combining the softness, comfort and warmth of wool with the hard-wearing properties of nylon for optimal performance, York Wilton is suitable for extra heavy wear.

The diversity of York Wilton's extensive colour palette allows for co-ordination with Ulster's wide range of woven Axminsters.

WHY CHOOSE A LOOP CARPET?

Choice of colour, design and textures

The loop weaving process gives you a great looking plain or textured carpet that will stand the test of time. We offer a variety of finishes in a comprehensive palette of colours that will add sophistication to your room.

Made in Denmark

Our loop carpets are designed in the UK and manufactured in Denmark by danfloor, an Ulster Group Company.

High Tech Ultra Light Bac®

An Ulster tufted carpet backed with our high tech Ultra Light Bac® brings many benefits to consumers and retailers alike. High tech – Ultra Light Bac® uses a high-tech resin which forms a stronger bond between the primary and secondary carpet backings. Despite the stronger bond the carpet is much more supple and this brings a variety of benefits such as:

- **Crease resistant** – Ultra Light Bac® carpet can easily be folded for carrying upstairs, in lifts or other difficult to access areas with no risk of delaminating or cracking and little chance of creasing.
 - **Scratch free** – When handled correctly during the fitting process Ultra Light Bac® will not scratch or scuff your wallpaper or skirting boards.
 - **Delamination free** – Unlike conventional glued action backed carpets Ultra Light Bac® carpets will not delaminate.
- 25% lighter Ultra Light Bac® uses no fillers or glue making it lighter on the environment, easier to transport and recycle.

100% wool

Every journey to a luxury carpet begins by selecting the right wool. At Ulster Carpets, we only source the best wool from the UK, Ireland and New Zealand to provide the perfect starting point.

What is Open Spaces Laneve™?

Made using 100% Laneve™ wool, Open Spaces Laneve is the result of a partnership between Ulster Carpets and Wools of New Zealand. The Auckland, Queenstown, Napier, Raglan and Wellington Stripe ranges that form this collection have a dense loop pile texture that creates a natural contemporary floor covering that is also soft, warm and durable.

The 100% Laneve™ wool used in this range is traceable back to the individual farmers in New Zealand who operate under strict ethical, animal welfare and environmental standards.

What is terræn level cut loop carpet?

Terraen is a stylish Danish-inspired Level Cut Loop (LCL) collection that is manufactured in Denmark by danfloor, an Ulster Group Company specialising in the loop tufting method. Constructed using 80% premium British and New Zealand wool combined with 20% nylon, terraen is available in 4m, 3m, 2m and 1m colour matching Multi Widths and is suitable for general residential wear.

Aftercare

With simple, regular maintenance, an Ulster Carpet will stay looking its best for many years. Every week, use an upright vacuum with a beater bar to dislodge most of the dust and dirt trapped in the carpet to maintain the original look of your carpet for longer.

Design: HABITÜS Croft Furrow

HABITÜS

Drawing on the emotional connection we create with the surrounding elements, HABITÜS blends contemporary patterns and comforting textures with neutral colourways and contains two designs, Croft and Strönd.

OPEN SPACES & laneve

Open Spaces is a comprehensive loop collection made from 100% wool to deliver a textured, contemporary look that is soft, warm and durable.

Open Spaces is offered in an extensive array of organic colours that will merge seamlessly into all interior schemes and co-ordinate perfectly with Ulster's extensive woven Axminster offering.

The Open Spaces Laneve™ range has been developed in partnership with Wools of New Zealand. The wool used in these carpets is fully traceable and is supplied by farmers who must meet a comprehensive range of environmental, social responsibility and animal welfare standards.

For more information on Laneve™ visit: www.woolsnz.com

100% Wool & 100% New Zealand Wool
Loop Pile

Available in 5m, 4m, 3m, 2m & 1m

Suitable for Heavy Wear

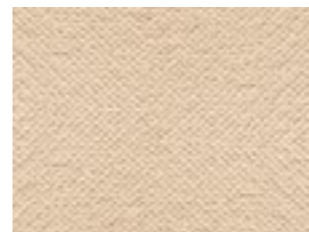

“...Through Wools of New Zealand, customers can trace the Laneve wool in their carpet back to the farm where it was produced, providing peace of mind that the wool has been grown under strict animal welfare, ethical, and environmental standards.”

Design: Natural Choice Textures Swaledale

Natural Choice Textures

When you think of wool, you automatically think of a white material that is naturally soft.

Yet nature has gifted us with different sheep breeds that have naturally different coloured fleeces. Natural Choice Textures blends these different fleeces to create a broad colour bank of entirely natural colours.

Made of 100% undyed Wool, each of the eight colourways in this new 6 ply loop range from Ulster Carpets is named after a different sheep breed.

Cheviot, Southdown and Woodland consist of a warm group of colors, while Teeswater, Drysdale and Jacob provide a neutral base. Finally, Swaledale and Hebridean offer a choice of cooler greyer shades.

This new loop range enhances a successful Natural Choice collection that already includes Axminster and Wilton carpets.

100% Undyed British Wool.
Loop Pile.

Available in 5m, 4m, 3m, 2m and 1m.

Suitable for Heavy Wear Applications.

Colour Co-ordination

The sheer volume of products on the market can make the job of co-ordinating your carpets seem like an endless and often overwhelming task.

Our patterned ranges have been designed to co-ordinate beautifully with our magnificent selection of plain carpets.

Visit the inspiration area of our website for more on co-ordination tips.

Retailers

To access the co-ordination spreadsheet please visit the retailer area on our website: www.ulstercarpets.com/residential

Icons Explained

Wool

- The natural choice for your home
- Naturally soft for greater comfort and luxury
 - Sustainable, renewable and recyclable
 - The healthy choice for indoor air quality

Moth Resistant

We apply a moth resistant / repellent treatment during the manufacturing process that penetrates the entire carpet pile. Our research shows that this application method provides long-term resistance that will remain in place for the normal life cycle of your carpet.

Quality

- Manufactured at our own facilities in the UK, Ireland and Denmark
- Made from the finest wools
 - Superior construction for better performance
 - Stringent quality checks at every step

Service

We have combined design and manufacturing excellence with the highest levels of customer service. The quality of our bespoke carpets is matched by the strong relationships that we have built up with our customers.

Design

- Unique designs that meet a range of tastes
- Distinctive patterns and plains
 - Classic to contemporary
 - Sophisticated colours

Environmental

With the ever growing number of environmental concerns, choosing an Ulster wool rich carpet contributes to the preservation of the environment without compromising on performance and luxury.

50%

Landfill

Making a difference

Sustainability is at Ulster's core.

As a world-leading manufacturer of luxury carpets, we recognise our role in reducing our carbon footprint. For that reason we continually review our efforts to find more efficient and sustainable processes without compromising on performance and luxury.

Rapidly renewable material

We use the best wool sourced from Britain, Ireland and New Zealand in our carpets. Classed as a rapidly renewable material, wool is re-grown in 12 months to provide a sustainable supply of high quality raw material.

Innovation

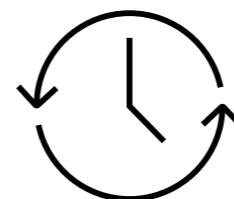

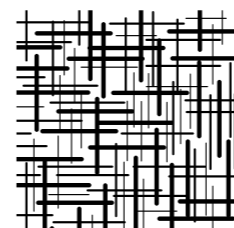

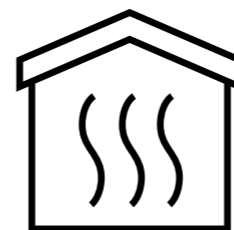

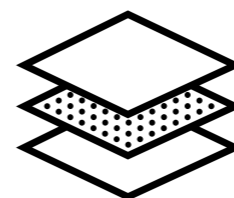

From our energy efficient looms and innovative systems to transport and waste management, we have strategically developed more sustainable methods of manufacturing luxury carpet.

Accreditation

We are accredited to ISO 14001:2015 EMS 53967 Environmental Standard and ISO 9001:2015 Cert No. FM0877.

Carbon commitment

We became the first company in Northern Ireland and the first textile manufacturer in the UK to be awarded the Carbon Standard Award. We have reduced our carbon footprint by 50% and are committed to reducing this further.

AXFELT

TRIPLE LAYER UNDERLAY

Help to significantly extend the life of your new carpet by fitting Axfelt Triple Layer Underlay.

Axfelt Triple Layered Underlay is a luxury underlay with a wool felt topping, mixed material middle layer and a rubber crumb bottom layer.

It provides an excellent foundation for your new carpet to help prevent wear and tear, increasing the life of the carpet and maintaining its looks.

Fitting Axfelt Underlay also delivers excellent sound and warmth insulation helping reduce noise and heating bills.

Made from 100% recycled materials including old carpets and rubber tyres Axfelt Triple Layer Underlay is a sustainable product, designed to make a contribution to the reduction of the amount of carpet currently disposed of in landfill in the UK.

We are extending our standard 6 year guarantee, on any of Ulster's Axminster and Wilton ranges, when installed with Axfelt Triple Layer Underlay.

Talk to your retailer for more details.

Additional Information

Retailers & Consumers

Ulster strive to provide you, our retailers and consumers, with the best possible service. To achieve this, we offer a range of tools to assist with that all-important purchasing decision -

Ordering Samples

We know that seeing an image in a brochure is nothing like holding and feeling our actual product in your hand. Samples are a crucial part of this process and are often the source of interior design inspiration, especially for matching against already purchased soft furnishings. It is for that reason that we have made it easy to order samples using our

website. Each sample is professionally presented in branded packaging and can be posted directly to the retailer or the consumer. Samples are limited to five per customer and can be returned to us using the freepost envelope. Old samples are converted into Axfelt Triple Layer Underlay.

Samples can be ordered by emailing ucm.orders@ulstercarpets.com or via www.ulstercarpets.com

Visit us at www.ulstercarpets.com

Our contemporary and easy to use website showcases all of our products to perfection with improved functionality allowing you to easily view all of our products. You can add any swatches you require to your shopping cart, and complete your free sample order. The website also provides useful consumer information such as aftercare advice, carpet terms and instructions on how to calculate the amount of carpet you require.

To be added to our 'Find A Stockist' section, please contact your Ulster Sales Executive.

Downloadable versions of all our brochures are also available online. You can keep tabs on all the latest Ulster news in the blog section of our website as well as on our social media channels.

Follow us on social media

Aftercare

We know that customer service doesn't stop with the purchase. No matter how often carpets are vacuumed and how many protective mats are in place, spots and stains will occur now and then. Ulster have put together an aftercare guide to deal with all these occurrences which can be viewed in the Advice section of our website - www.ulstercarpets.com. We hope that this will service as a useful reference tool.

To keep the appearance of your carpet and prolong its life, it is important to correctly clean it. Weekly vacuuming, preferably with an upright cleaner and a beater bar, will dislodge most of the dirt and dust trapped within the layers of your carpet.

Retailers

There are a number of ways to make it easier for retailers to keep up-to-date with all the latest developments at Ulster -

Retailer Area

The Retailer Area of our website - www.ulstercarpets.com/residential provides a range of useful information including flooring guides, price lists, a media gallery, access to the Web Service and other essential information.

To gain access, click on the Hamburger Bar (the one with the three lines on top of each other) and in the drop down menu fill in your details in the Retailer Area section.

If you can't access the Retailer Area, contact your Sales Executive or email: marketing@ulstercarpets.com

Retailer eNewsletter

The Ulster eNewsletter is used to keep you informed on new launches, discontinued ranges and any other Ulster news relevant to our retailers.

This method is in line with our eco-friendly policy of reducing the volume of printed material we produce and is an effective way for us to keep retailers informed.

To sign up to the Ulster eNewsletter, email marketing@ulstercarpets.com

Web Service

Our Web Service is an effective way of keeping up-to-date on your account, particularly as it is accessible 24 hours a day, 7 days a week.

The stock enquiry facility enables you to search by either stock range, design, width or by matching batch with information also available on future planned stock dates. You can also place orders online and track your orders from placement to delivery.

If you are not already a member of Ulster's Web Service simply visit www.ulsterwebservice.com, click 'Register' and follow the simple steps.

Customer Services

If you can't find the information you are looking for on our website or via the Web Service, our Customer Services Team are always on hand to answer your queries. Our Northern Ireland based team have won numerous awards for their friendly and efficient service and can be contacted during office hours Monday - Friday.

Alternatively you can contact your Ulster Sales Executive. You can find the contact details of the Ulster representative for your area in your price list.

To speak to the Customer Services Team, telephone: + 44 (0) 28 3833 4433

Weaving Quality *since 1938*

Established in 1938 in Portadown, Northern Ireland, by George Walter Wilson, Ulster Carpets is still owned by the founder's family.

We have worked hard to maintain the rich history of the UK's textile industry, with weaving skills passed down from generation to generation at our manufacturing facilities in the UK, Ireland and Denmark.

Innovation remains at the heart of our success, and we have developed the most technically advanced carpet weaving plants in the world.

As the premier supplier of Axminster and Wilton carpets to the world market we have developed our own unique and patented weaving system that creates a greater degree of design intricacy, an enhanced spectrum of colour and at an unrivalled level of efficiency.

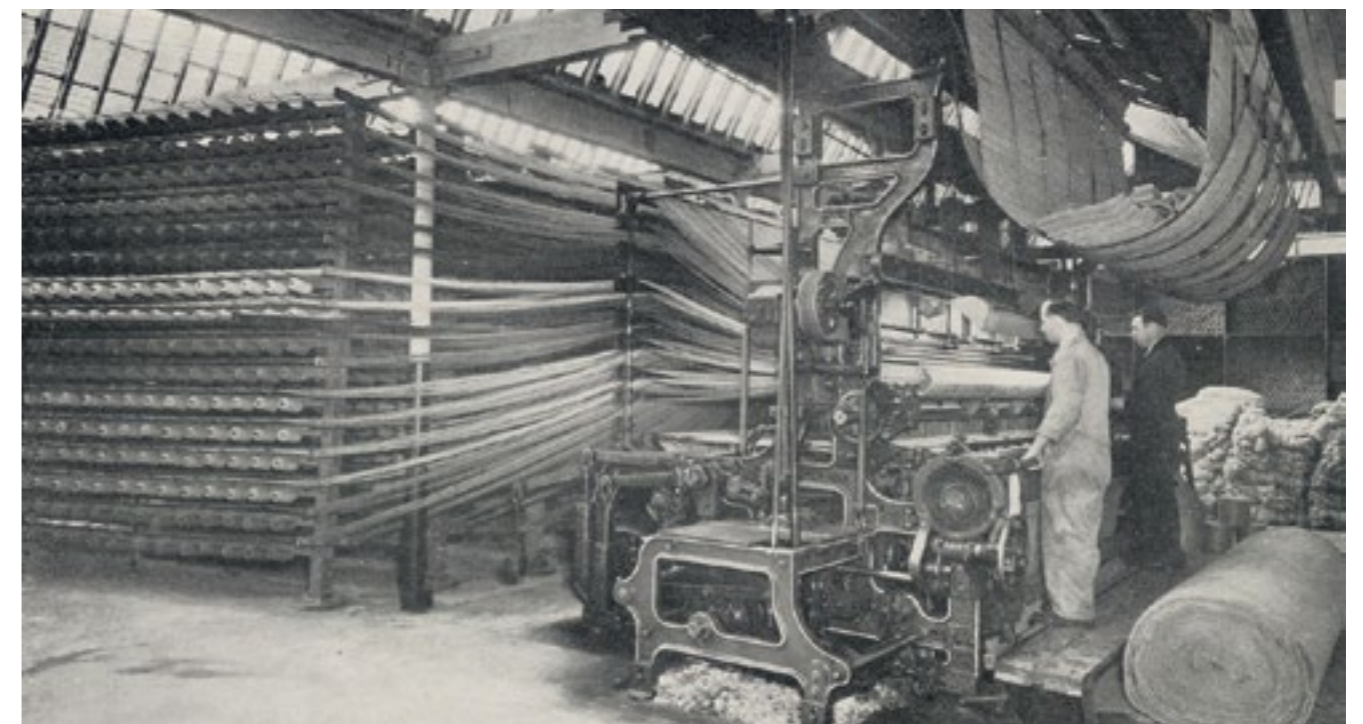

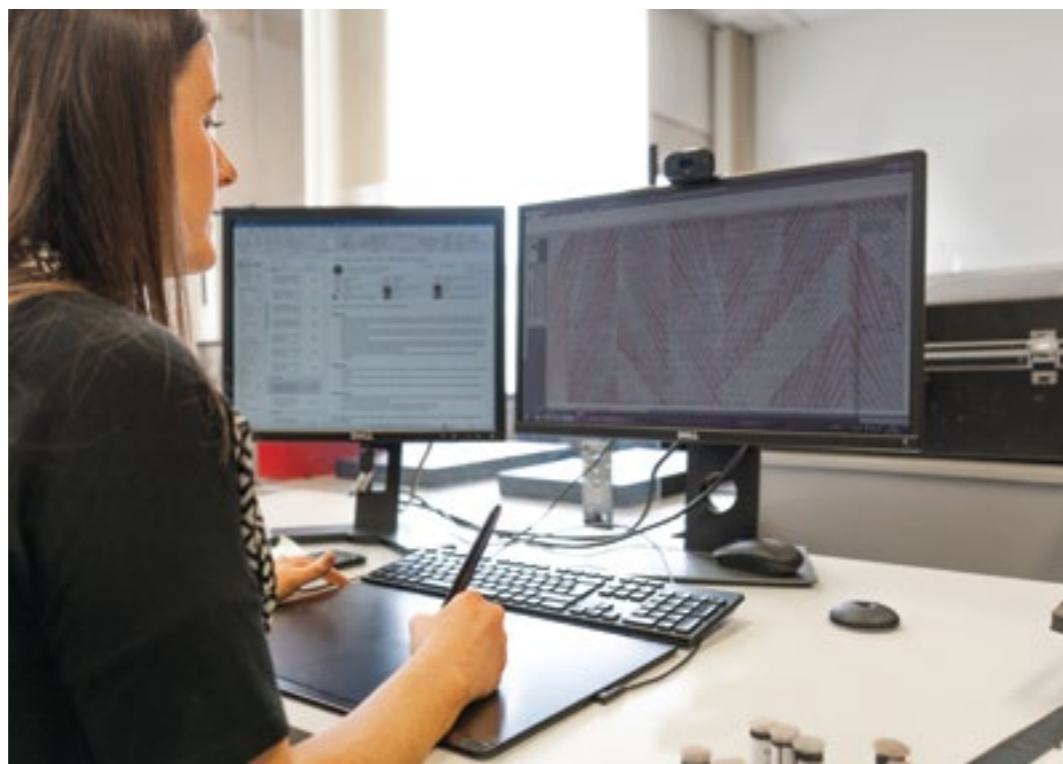

Ulster designs and manufactures custom carpets for some of the world's leading hotels, casinos and

cruise ships and the same looms that create these flooring works of art also weave the quality carpet for your home.

All of our yarn is manufactured in our own spinning plant in Dewsbury, West Yorkshire, enabling us long-term security of supply. Our Axminster and Wilton carpets are woven in our state-of-the-art facilities in the UK and Ireland while our loop ranges are made in Denmark by danfloor, an Ulster Group Company specialising in loop weaving.

Having this overall level of control over every aspect of the manufacturing process means that we can deliver the highest standards. It also allows us to offer faster delivery times.

The quality of an Ulster carpet is matched by the highest standards of service. Our Sales Executives have vast experience and are backed by an award-winning Customer Services team to provide an unrivalled level of service.
